SUMMARY

I am a Senior Frontend Engineer with 5+ years of experience in developing user-friendly applications. Specializing in Angular, I excel in creating scalable frontend architectures and modernizing systems. I focus on performance and quality while mentoring teams to enhance code quality and functionality. My passion for technology drives me to explore AI enhancements in software workflows and improve user experiences

EXPERIENCE

Senior Software Engineer L2

[IDP Education Ltd](#)

📅 08/2022 📍 Chennai

A company managing student applications and educational resources

- Progressed from Software Engineer to Senior Software Engineer L1, and currently Senior Software Engineer L2, based on consistent performance and technical leadership
- Built the Application Management System from scratch using Angular v12 with a focus on Reactive Forms, modular architecture, and reusable components
- Designed and applied complex multi-step forms to capture and validate student academic, personal, and application details
- Developed an integrated Document Management System for secure document handling
- Implemented optimized Angular lifecycle hooks, lazy loading, and code-splitting strategies, achieving a minimal production bundle size (~1 MB)
- Maintained ~95% Jest unit test coverage, writing comprehensive test cases
- Played a key role in Angular version migration (v12 → v16).
- Collaborated with Product Owners, Backend teams, and QA to improve delivery timelines
- Developed and modified a IELTS website for more user friendly.

Software Developer

[Maximl](#)

📅 09/2020 - 08/2022 📍 Chennai

A company providing operational management solutions to large enterprises

- Worked on a Job Maintenance and Operations Management platform for enterprise clients
- Built digital solutions that replaced manual workflows, ensuring operational transparency
- Enhanced web applications using Angular v12 and Tailwind CSS
- Took ownership of UI design enhancements in collaboration with UX designers
- Applied internationalization for multi-language support
- Contributed to end-to-end testing initiatives using Cypress

React Developer

[ProwessTech](#)

📅 10/2021 - 12/2021 📍 Coimbatore

A company focusing on technology solutions for online education

- Worked as a React developer on an online education course platform
- Designed a secure course purchase and checkout flow using Razorpay
- Integrated payment transaction handling for a reliable user experience
