👤 Profile

I am a Senior Frontend Engineer with **5 years of hands-on experience** turning complex requirements into **clean, performant, and user-friendly applications**. Specialized in **Angular (v12-v19)** with deep expertise in reactive forms, testing-first development, and performance optimization. Trusted team lead, strong collaborator, and problem-solver who enjoys modernizing legacy systems and building from scratch. Experienced with scalable frontend architecture, and currently exploring **AI-driven enhancements** in product workflows. Dedicated, growth-driven, and grounded—believing great software is built by people who enjoy both their craft and their lives.

📁 Professional Experience

08/2022 – Present
Chennai

IDP Education Ltd

Senior Software Engineer L2

- Progressed from **Software Engineer** to **Senior Software Engineer L1**, and currently **Senior Software Engineer L2**, based on consistent performance and technical leadership.

Application Management System:

A student application platform used to collect, validate, and prefill student data for university applications.

- Built the application **from scratch** using **Angular v12** with a strong focus on **Reactive Forms**, modular architecture, and reusable components.
- Designed and applied **complex multi-step forms** to capture and validate student academic, personal, and application details.
- Developed an integrated **Document Management System**, enabling secure **uploading, previewing, downloading, and validation** of student documents (PDF/Image).
- Implemented optimized Angular **lifecycle hooks**, lazy loading, and code-splitting strategies, achieving a **minimal production bundle size (~1 MB)**.
- Led and mentored a **small frontend team**, providing code reviews, design guidance, and technical support.
- Maintained **~95% Jest unit test coverage**, writing comprehensive test cases for components, services, and utility functions.
- Played a key role in **Angular version migration (v12 → v16)** with zero production downtime.
- Collaborated closely with **Product Owners, Backend teams, and QA** to improve delivery timelines and restructure modules for better scalability.
- Integrated and enforced **ESLint, SonarQube, and Snyk**, improving code quality, security posture, and maintainability.

IELTS Test Taker Platform:

A high-traffic platform managing IELTS test taker journeys and controls.

- Contributed as a senior frontend engineer focusing on **stability, performance, and quality improvements**.
- Led **Angular framework upgrade from v16 → v19**, resolving compatibility issues and modernizing the codebase.
- Significantly improved test reliability by increasing **Jest coverage from ~60% to ~90%** through systematic unit test refactoring.

- Addressed and resolved large volumes of **SonarQube, ESLint, and Snyk issues**, reducing technical debt and security vulnerabilities.
- Improved production performance by **reducing bundle size from ~8 MB to ~4 MB**, optimizing build configurations and removing unused dependencies.
- Worked on **Backstage platform integration**, enabling a unified developer experience by consolidating **GitLab, Jira, SonarQube, Snyk, and other tooling** into a single dashboard.
- Gained hands-on exposure to **AI developer** tools such as **Amazon Q and Claude**, including evaluation and investigation of integrating large language models into existing projects.

09/2020 – 08/2022
Chennai

Maximl

Software Developer

- Worked as a frontend developer on a **Job Maintenance and Operations Management platform** used by large enterprise clients including **BPCL, IOC, and Vedanta**.
- Built a **digital-first solution** that replaced manual paper-based workflows, enabling **end-to-end job tracking, status monitoring, and operational transparency**.
- Enhanced responsive and scalable web applications using **Angular v12** and **Tailwind CSS**, following modern UI/UX best practices.
- Took ownership of **UI design enhancements**, closely collaborating with **UX designers** to improve usability, accessibility, and mobile responsiveness.
- Applied **internationalization (i18n)** to support **multi-language translations**, enabling wider adoption across different regions.
- Contributed to **end-to-end (E2E) testing initiatives** by performing a proof of concept (POC) and phased implementation using **Cypress**.
- Supported both **web and mobile platforms**, where the mobile application was executed using **ionic + Angular**, ensuring UI consistency across devices.

10/2021 – 12/2021
Coimbatore

ProwessTech

React Developer

- Worked as a React developer on an **online education course platform**, contributing to core user-facing features.
- Designed a **secure course purchase and checkout flow** using the **Razorpay payment gateway**.
- Integrated payment success, failure, and verification handling to ensure a **smooth and reliable user transaction experience**.

Education

08/2017 – 06/2021
Coimbatore

Bachelor of Computer Science

Sri Shakthi institute of engineering and technology

Graduated with a percentile of 8.5
